

**megatrend**  
poslovna rješenja

**We are hiring**

## **SOFTWARE DEVELOPER (M/F)**

Megatrend poslovna rješenja develops analytical solutions for reputable corporate clients in the field of banking, hospitality and retail with an emphasis on business decision support projects, advanced analytics, Big Data, Machine Learning and Artificial Intelligence.

Investments in technology and partnership with clients are extremely important to us, and the following have a particularly important place in our work:

- Investing in the professional advancement of employees
- Maintaining a healthy balance between business and private life
- Continuous improvement of the level of business

In order to strengthen the team we are looking for a competent and committed person for the position of **Software Developer (m/f)**.

We are looking for engineers, who will help us and our clients make smarter decisions and deliver even better quality products.

Engineers who are already well acquainted with this type of work and have already worked on the same or similar roles, with at least 1 year of experience have an advantage in the selection process.

### **Skills required:**

- University degree/graduate study of a technical orientation
- Knowledge of some programming language - Python (preferably), Java or C#
- Experience working in one of the JavaScript frameworks such as Angular, Vue.js, React, etc.
- Good knowledge of relational databases (MSSQL, PostgreSQL, MySQL)
- Knowledge of code versioning systems (Git)
- Good knowledge of English in speech and writing
- Thoroughness, reliability, independence in performing tasks
- Ability to work in teams
- Readiness for continuous education and training

### Preferred skills:

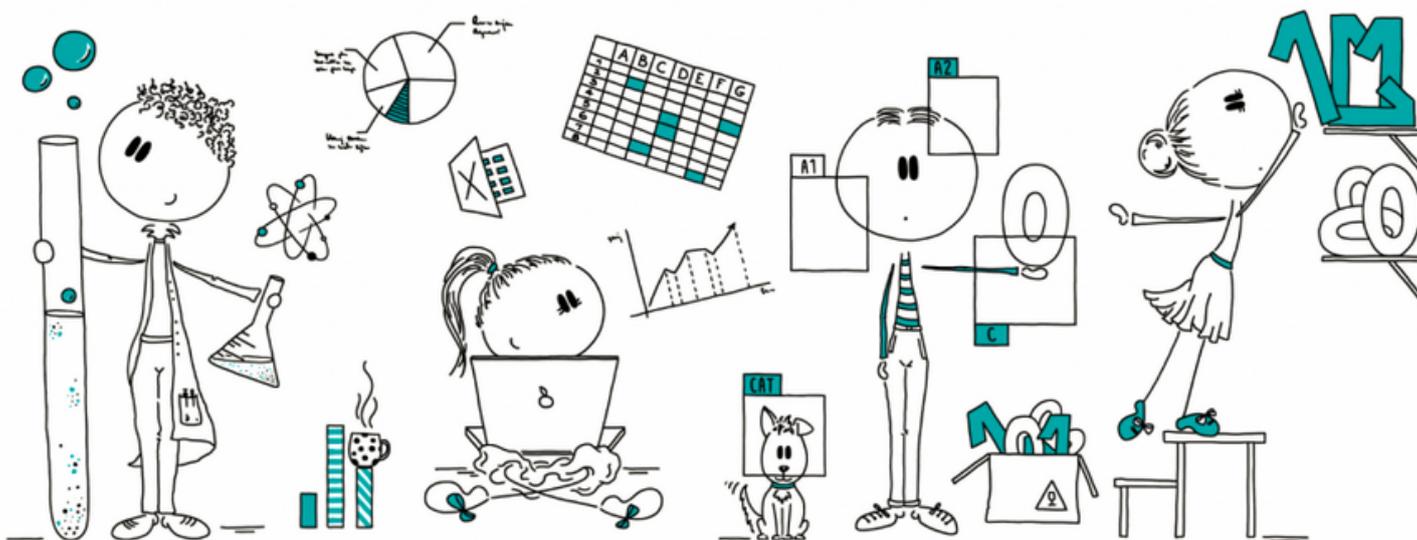

- Experience working in the Django framework
- Experience working with cloud services (AWS, Azure)
- Experience in building APIs
- Good communication and presentation skills (soft skills)

### We offer:

- Recognizing and rewarding your performance in the form of regular income and bonuses
- Open exchange at all levels and the opportunity for your innovative ideas and suggestions
- Stimulating work atmosphere in a modern environment
- Continuous training and certification

If you recognize yourself in the required qualifications and are ready to take on an important role in our business, send your CV and application to [posao@megatrend.com](mailto:posao@megatrend.com)

Candidates who meet the required conditions will be contacted as soon as possible. We will treat your application with the highest level of confidentiality in all selection steps.
